Report of the Investment Manager

For the financial period ended 31 March 2025

Mori Eastern European Fund

Due to the tragic military conflict between Russia and Ukraine that started on February 24, 2022, the Board of Mori Umbrella Fund Plc., in the best interests of the shareholders, decided to suspend the calculation of the Net Asset Value (NAV) and dealing of the Mori Eastern European Fund (the "Fund") as of February 28, 2022 until further notice. The Board of the Fund together with the investment manager have continuously monitored the situation and developments on an ongoing basis. The Fund remained suspended during the period under review as the Russian securities the Fund holds were not tradable due to the sanctions imposed by both the Russian Federation and the EU. However, the non-Russian part of the portfolio continued to be actively managed by the investment manager throughout the period under review.

Given that the Russian securities were not tradable for the Fund during the period under review, the Board of the Fund decided to value all the Russian securities (both local shares and depository receipts) at "zero" for the time being. Based on this decision, the fund accounting team at Northern Trust (the Fund's Custodian and Administrator) continued producing an unofficial and indicative NAVs for the remainder of the portfolio for information purposes only.

The table below shows the last official NAVs on 25 February 2022 and the unofficial indicative NAVs during the suspension period for each of the Fund's share classes:

FUND	LAST Official NAV	*FIRST Indicative NAV*	*Indicative NAV*	*Indicative NAV*

Following the start of the Russia/Ukraine conflict and several rounds of sanctions by the west and Russia, MSCI decided to exclude Russian securities from its indices. The MSCI Emerging Europe 10/40 Total Return Index that the Fund and most of the peers used as the benchmark declined by 25% in euro terms from 25 February 2022 to 31 March 2025, whilst the indicative unofficial NAV of the Mori Eastern European Fund Class A-EUR gained 85% during the same period. The Board of the Fund decided to drop the MSCI benchmark as it believed the index became irrelevant following the decision of the MSCI.

FUND	% Chg.	% Chg.	% Chg.
	25/02/22 - 30/12/22	25/02/22 - 31/03/25	YTD 2025
MSCI Emerging Europe 10/40 TR Index	-52%	-25%	12%

Central European and Greek indices all recorded positive performance for the six months to the end of March 2025. Czech equities were the clear winners with Prague Stock Exchange (PX) Index registering a 32% gain in Euro terms. According to Bloomberg data, the Fund's Czech holdings Komerční Banka and CEZ were amongst the top three positive contributors to the index's performance during the period under review.

The Fund held its largest positions Magyar Telekom and the pharmaceutical company Gedeon Richter, both of which contributed positively during the period under review. Wizz Air Holdings Plc, which uses Budapest as its main hub, was added to the portfolio as the stock price declined from its peak of almost GBP 5,600 in the first quarter of 2021 to around GBP 1,140 by the third quarter of 2024, some 80% drop over the course of this period, which the fund manager believed provided an attractive entry level.

Mori Eastern European Fund

Following a strong rally prior, the Polish equities consolidated during the last quarter of 2024. However, they joined the rally in the first quarter of 2025 as European markets attracted relocation of capital from the other side of the Atlantic following a sell-off in US assets after President Trump's announcement of tariffs globally on US imports.

Despite a positive backdrop in most European bourses, Turkish equities closed the period under review in the red with the MSCI Turkey Index registering a 10% loss in Euro terms. The arrest of Istanbul Mayor Ekrem Imamoglu on 19 March increased investors' risk perception for Turkish stocks, which had been out of favour for some time already given the central bank's rather sharp rate hikes in 2023/2024. The Fund had already reduced its Turkish exposure to a very limited number of stocks due to valuation and inflation concerns. Thus, the negative impact of the correction in Turkey has been limited for the Fund during the period under review.

The Fund maintained UCITS-eligible ETCs in gold and silver during the period under review. Particularly, the US dollar price of gold continued to hit new all-time highs in light of increased uncertainty in global trade, geopolitical concerns and sticky inflation rates in most of the major economies around the world.

Mori Ottoman Fund

Despite a positive backdrop in most European bourses, Turkish equities closed the period under review in the red with the MSCI Turkey Index registering a 10% loss in Euro terms. The arrest of Istanbul Mayor Ekrem Imamoglu on 19 March increased investors' risk perception for Turkish stocks, which had been out of favour for some time already given the central bank's rather sharp rate hikes in 2023/2024. Is Yatirim and Isbank were the main positions of the Fund during the period under review. Otherwise, the Fund had already reduced its Turkish exposure to a very limited number of stocks due to valuation and inflation concerns. Thus, the negative impact of the correction in Turkey has been limited for the Fund during the period under review.

The Fund maintained UCITS-eligible ETCs in gold and silver during the period under review. Particularly, the US dollar price of gold continued to hit new all-time highs in light of increased uncertainty in global trade, geopolitical concerns and sticky inflation rates in most of the major economies around the world.

One of the major promises of President Trump was to end the bloodshed in Ukraine as soon as he took office in January 2025. The US and Russia started negotiations and the US reportedly signed a rare earths agreement with Ukraine shortly before this report went to print. However, according to reports, there has so far been little progress between Russia and the EU. However, the fund manager believes that should there be a deal between the US and Russia which could lead to a ceasefire in Ukraine, the EU may join the peace talks quickly. The Fund continued to accrue dividends for the Fund's Russian holdings, which are also valued at "zero" by the Fund's administrator as the non-resident investors cannot have access to and/or monetise them for the time being due to sanctions. The intention of the board continues to lift the suspension of the Funds as soon as conditions are favourable for investors.

Notes to the Financial Statements

For the financial period ended 31 March 2025

1. General

Mori Umbrella Fund plc (the “Company”) was incorporated in Ireland on 30 March 1998 as an open-ended umbrella investment company with variable capital and limited liability authorised by the Central Bank of Ireland (the “Central Bank”) as a UCITS (Undertakings for Collective Investment in Transferable Securities) pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the “UCITS Regulations”) and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the “Central Bank UCITS Regulations”).

During the financial period ended 31 March 2025, the Shares of the following Sub-Funds were in issue:

- Mori Eastern European Fund (authorised by the Central Bank 15 July 1998).
- Mori Ottoman Fund (authorised by the Central Bank 3 January 2006).

Shares in Mori Eastern European Fund and Mori Ottoman Fund are currently listed on Euronext Dublin.

On 28 February 2022, the Board, in consultation with the Manager, the Investment Manager and the Depositary, decided to temporarily suspend all dealing with effect from 28 February 2022 for the Mori Eastern European Fund and the Mori Ottoman Fund in light of developments with the Ukraine/Russian Crisis and the exposure the Sub-Funds had to Russian equities and depository receipts securities.

The decision to suspend dealing was taken with the aim of ensuring the interests of all shareholders of the Sub-Funds were protected in view of the market impact of the extensive sanctions imposed by the US, EU and others, and by the decision of the Russian Central Bank to temporarily prohibit execution of orders by non-Russian residents to sell securities. The uncertainty meant that the Company was unable to establish a firm price for the Sub-Funds’ holdings in Russian equities and depository receipts securities and unable to obtain settlement for any sale.

2. Material Accounting Policies

The material accounting policies and estimation techniques adopted by the Company for the financial period ended 31 March 2025 are consistent with those adopted by the Company for the annual financial statements for the financial year ended 30 September 2024, except as noted below.

Accounting standards in issue that are not yet effective, but available for early adoption:

Standards not yet effective	Effective date
Lack of Exchangeability – Amendments to IAS 21	1 January 2025
Amendments to the Classification and Measurement of Financial Instruments – Amendments to IFRS 7 and 9	1 January 2026
IFRS 18 Presentation and Disclosure in Financial Statements	1 January 2027
IFRS 19 Subsidiaries without Public Accountability: Disclosures	1 January 2027

There are no standards, amendments to standards or interpretations that are effective for the period ending on 31 March 2025 that have a material effect on the financial statements of the funds.

Basis of Preparation

The condensed interim report and unaudited financial statements for the financial period ended 31 March 2025 have been prepared in accordance with IAS 34, ‘Interim Financial Reporting’. The Sub-Funds were still suspended from dealing as of this date and Russian equity holdings and Russian depository receipts were priced at zero per Board instructions. The condensed interim report and unaudited financial statements should be read in conjunction with the annual financial statements for the financial year ended 30 September 2024 which have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as adopted by the European Union.

In addition, these financial statements are prepared in accordance with the UCITS Regulations and the Central Bank UCITS Regulations.

3. Fees

Investment Management Fee

Mori Capital Management Limited

The Company pays a fee to the Investment Manager in respect of each Sub-Fund at the following percentage rate per annum of the value of the average net assets of the Sub-Funds:

- Mori Eastern European Fund – Class A	1.65%
- Mori Eastern European Fund – Class B	1.75%
- Mori Eastern European Fund – Class AA GBP	2.00%
- Mori Eastern European Fund – Class C GBP and Class M EUR	1.25%
- Mori Ottoman Fund – Class A	1.75%
- Mori Ottoman Fund – Class AA GBP	2.00%
- Mori Ottoman Fund – Class C EUR, Class C GBP, Class C USD and Class M USD	1.25%

The Company pays to the Investment Manager an annual fee accrued as of each Valuation Day and payable monthly in arrears at the rates above per annum of the average Net Asset Value (“NAV”) of the Sub-Fund (plus VAT, if any). The Investment Manager pays the fees of any sub-investment manager or adviser appointed by it.

The Investment Manager can at their discretion reduce the fees they charge the Sub-Funds to keep the expenses within a certain threshold. For the purpose of the Statement of Comprehensive Income, the Investment Management fees rebates have been netted against the Investment Management fees. Investment management fees rebates receivable are included in trade and other receivables in the Statement of Financial Position.

The Investment Management Agreement may be terminated by either party on giving not less than six months prior written notice to the other party. It may also be terminated forthwith upon certain breaches or upon the insolvency of a party (or upon the occurrence of a similar event).

The prospectus stipulates that Investment Management fees earned during a period of suspension, “will be based upon the next available determination of the NAV per Share and the amount of any investment management fees accrued will be adjusted accordingly”. In order to support the Investment Manager until their fees can be accurately calculated and paid, the board agreed in advance a sum not exceeding €25,000 per month towards operating costs from 1 January 2025. Amounts paid are to be offset against fees earned by the Investment Manager during the suspensions. The amounts paid for the financial period ended 31 March 2025 totalled €45,000.

During the financial period ended 31 March 2025, the Investment Manager charged management fees of €545,431 (31 March 2024: €476,803), of which €2,854,759 (30 September 2024: €2,324,760) was payable at 31 March 2025.

The Investment Manager also pays on behalf of the Sub-Funds a portion of the fees related to the administration services provided by the Administrator. The total amount paid during the financial period by the Investment Manager on behalf of the Sub-Funds amounted to €47,513 (31 March 2024: €47,118).

Performance Fee

The Investment Manager will also be paid from the Sub-Funds a performance fee accrued as of each Valuation Day and payable as of each Calculation Day (defined overleaf). There is no performance fee payable in respect of the AA Share Classes, B Share Classes, C Share Classes or M Share Classes. The Investment Manager may waive or reduce the performance fees payable at its entire discretion. The performance fees described below may be altered by agreement in writing between the Investment Manager and the Company.

The performance fees will be calculated by the Administrator and verified by the Depositary and the Investment Manager and is not open for the possibility of manipulation. The amount of performance fees earned by the Investment Manager in respect of any period will be retained regardless of the subsequent performance of the Sub-Fund. If the determination of the NAV per Share is suspended on any Calculation Date the calculation of the performance fees on that date will be based upon the next available determination of the NAV per Share and the amount of any performance fees accrued will be adjusted accordingly.

Where a Performance Fee is payable out of the assets of a Sub-Fund it shall be calculated upon the increase in the Net Asset Value per Share calculated at the Calculation Day. Included in that calculation shall be net realised and unrealised capital gains plus net realised and unrealised capital losses as at the end of the relevant period. As a result, Performance Fees may be paid on unrealised gains which may subsequently never be realised.

Notes to the Financial Statements (continued)

For the financial period ended 31 March 2025

3. Fees (continued)

Performance Fee (continued)

Mori Eastern European Fund

The Investment Manager will be paid from Mori Eastern European Fund a performance fee of 15% in respect of Class A Shares of the amount (if any) by which the NAV per Share is on the relevant Calculation Day greater than the higher of:

- (1) the highest NAV per Share on any preceding Calculation Day, or
- (2) the Benchmark NAV (defined below), such excess being multiplied by the weighted average number of Shares in issue during the relevant Calculation Period or, in the case of (b) below, the number of Shares being redeemed.

The weighted average number of Shares in issue during any Calculation Period shall be calculated based upon the number of Shares in issue on each Valuation Day during the Calculation Period, taking account of the period of time for which such shares were in issue during the Period. In calculating the performance fee, account will be taken of performance fees paid on redemption. Due to the use of averaging in calculating the performance fee, the economic effect of performance fees on a per Share basis may substantially differ from the rate of 15% or 20% as applicable as described above. An appropriate provision for the amount of Performance Fee which is likely to be payable on the next Calculation Day based on the performance of the Sub-Fund to date will be included in the NAV per Share on each Valuation Day.

“Calculation Day” for these purposes means:

- (a) the last Valuation Day in each financial year ending 30 September for Class A Shares and Class B Shares;
- (b) in respect of Shares which are redeemed, the Valuation Day immediately prior to the Dealing Day on which such Shares are redeemed;
- (c) the date of termination of the Investment Management Agreement;
- (d) such other date on which the Company or the Sub-Fund may be liquidated or cease trading; or
- (e) “Calculation Period” for these purposes means the period commencing on the preceding Calculation Day and ending on and including the Valuation Day in question and the first Calculation Period shall be from the Closing Date to the first Valuation Day.

“Benchmark NAV” for these purposes shall be calculated by applying the EUR 12 month London Interbank Offered Rate (“LIBOR”) rate (EE0012M) to either the NAV per Share as at the beginning of the Calculation Period (where a performance fee based on this NAV was payable) or to the previously calculated Benchmark NAV at the beginning of the Calculation Period (where no performance fee was payable at the previous Calculation Day). The secured overnight financing rate (“SOFR”) 12 month rate – CME Group will replace EUR LIBOR effective 1 January 2022 and will be calculated as at the Calculation Day or date of initial issue, if earlier and will apply for the following Calculation Period.

The relevant rate will be calculated as at the Calculation Day or date of initial issue, if earlier and will apply for the following Calculation Period.

For the purpose of calculating the performance fee, the NAV per Share will be calculated after deducting investment management fee described in the above but without accounting for the performance fee then payable by the Company.

CME Group Benchmark Administration has been granted authorisation by the UK FCA as a UK administrator and benefits from the transition period for benchmark administrators under the Benchmark Regulation. CME Group Benchmark Administration is listed on the FCA's register for administrators.

The Company has adopted written plans setting out the actions it would take in the event that relevant benchmarks materially change or cease to be provided in accordance with Article 28 of the Benchmark Regulations.

The performance fees will remain payable until the suspensions of the Sub-Funds is lifted and will only be paid if the Net Asset Value calculated following the lifting of the suspensions is still in performance.

During the financial period ended 31 March 2025, the Performance fees totaled €nil (31 March 2024: €nil), and €89,651 (30 September 2024: €89,651) was payable at 31 March 2025.

Notes to the Financial Statements (continued)

3. Fees (continued)

Performance Fee (continued)

Mori Ottoman Fund

The Investment Manager shall be paid from Mori Ottoman Fund a performance fee:

i) payable as of each Calculation Day (defined below) of 15%. In respect of the Class A Shares of the amount (if any) by which the NAV per Share is on the relevant Calculation Day greater than the highest NAV per Share on any preceding Calculation Day (or greater than EUR 100.00 in the case of the first Calculation Day) multiplied by the weighted average number of Shares in issue during the relevant Calculation Period or, in the case of (b) below, the number of Shares being redeemed.

The weighted average number of Shares in issue during any Calculation Period shall be calculated based upon the number of Shares in issue on each Valuation Day during the Calculation Period, taking account of the period of time for which such shares were in issue during the Period. In calculating the performance fee, account will be taken of performance fees paid on redemption, which will be deducted from redemption proceeds. Due to the use of averaging in calculating the performance fee, the economic effect of performance fees on a per Share basis may substantially differ from the rate of 15% as described above. An appropriate provision for the amount of Performance Fee which is likely to be payable on the next Calculation Day based on the performance of the Sub-Fund to date will be included in the NAV per Share on each Valuation Day.

“Calculation Day” for these purposes means:

- (a) the last Valuation Day in each financial year ending 30 September;
- (b) in respect of Shares which are redeemed, the Valuation Day immediately prior to the Dealing Day on which such Shares are redeemed;
- (c) the date of termination of the Investment Management and Distribution Agreement; or
- (d) such other date on which the Company or the Sub-Fund may be liquidated or cease trading.

“Calculation Period” for these purposes means the period commencing on the last Calculation Day of the preceding financial year and ending on and including the Valuation Day in question and the first Calculation Period shall be from the Closing Date to the first Valuation Day.

For the purpose of calculating the performance fee, the NAV per Share will be calculated after deducting investment management fee described above but without accounting for the performance fee then payable by the Company.

The performance fees will remain payable until the suspension of the Sub-Fund is lifted and will only be paid if the NAV calculated following the lifting of the suspension is still in performance.

Management Fee

The Manager shall be entitled to an annual management fee of up to 0.020% of the NAV of the relevant Sub-Fund (the “Management Fee”). The Management Fee is based on a sliding scale applied to the aggregate assets across all Sub-Funds, subject to an annual minimum fee of €50,000 based on a single Sub-Fund and an annual minimum fee of €10,000 for each additional Sub-Fund.

The Management Fee shall be subject to the imposition of VAT, if required. The Management Fee will be calculated and accrued daily and is payable monthly in arrears.

The Manager shall be entitled to be reimbursed out of the assets of the relevant Sub-Fund for reasonable out of pocket expenses properly incurred and any VAT on all fees and expenses payable to or by it.

During the financial period ended 31 March 2025, the Management fees totaled €33,972 (31 March 2024: €33,977), of which €6,692 (30 September 2024: €5,148) was payable at 31 March 2025.

Notes to the Financial Statements (continued)

For the financial period ended 31 March 2025

3. Fees (continued)

Depository Fees

Northern Trust Fiduciary Services (Ireland) Limited

The Company pays the Depository for services provided in relation to trustee services accrued and payable monthly in arrears, calculated on the Net Asset Value of each Sub-Fund, subject to a minimum monthly fee of €1,500 per Sub-Fund, as follows:

- 0.0225% per annum on the Net Asset Value on the first US\$250 million;
- 0.0200% per annum on the Net Asset Value on the next US\$250 million; and
- 0.0175% per annum on the Net Asset Value for any amount in excess of US\$500 million.

The Depository is also entitled to be repaid out of the assets of the Sub-Funds all of its reasonable out-of-pocket expenses and transaction charges properly incurred by it in the performance of its duties and responsibilities under the Depositary Agreement which shall include wire and transfer charges, maintenance fee on derivatives, courier costs and filing fees, payable upon prior approval by the Company or its delegate.

Additionally, the Depository will charge to the Sub-Funds all safekeeping charges incurred by its sub-custodians and transaction fees, including stamp duties, scrip charges, registration fees and special taxes plus the usual ad hoc administration costs, all of which shall be at normal commercial rates.

During the financial period ended 31 March 2025, the Depository fees totalled €29,297 (31 March 2024: €37,843), of which €13,382 (30 September 2024: €9,776) was payable at 31 March 2025.

Administration Fees

Northern Trust International Fund Administration Services (Ireland) Limited

Mori Capital Management Limited (the "Investment Manager") pays the Administrator for services provided in relation to administration, accounting and middle office services in respect of the Sub-Funds to which it acts as investment manager. The Company pays an administration fee, which includes fees payable to the Administrator, to the Investment Manager of up to 0.5% per annum of the Net Asset Value of the Company.

The Administrator is paid directly by the Company for services provided in relation to shareholder services and transfer agency.

The Administrator further is entitled to be repaid all of its reasonable out-of-pocket expenses out of the assets of the Sub-Funds properly incurred by it in the performance of its duties and responsibilities.

During the financial period ended 31 March 2025, the Administration fees totalled €169,220 (31 March 2024: €148,137), of which €58,105 (30 September 2024: €28,152) was payable at 31 March 2025.

Company Secretary

Goodbody Secretarial Limited charges an annual fee of €19,009 plus VAT at 23% for the provision of company secretarial services (31 March 2024: €12,000 plus VAT).

Directors' Fees

The Company pays the Directors such annual remuneration for acting as Directors of the Company as the Directors may from time to time agree, provided however, that the annual remuneration of the Directors will not in aggregate exceed €125,000 per annum payable semi-annually in arrears.

Aggregate emoluments paid to or receivable by Directors in respect of qualifying services for the financial period are €26,884 (31 March 2024: €24,114), with €15,634 (30 September 2024: €11,250) still outstanding at 31 March 2025.

Waystone Management Company (IE) Limited is the Management Company (the "Manager") to the Sub-Funds.

All fees in relation to the Manager are disclosed in Note 3. There were no other transactions entered into with the Manager or group entities that were related and connected to the Manager during the financial period ended 31 March 2025.

Directors

The amount paid to the Directors in the financial period ended 31 March 2025 and the amounts outstanding as at 31 March 2025 are disclosed in Note 3. With the exception of the Directors there are no other employees in the Company.

Non-executive Director, Desmond Riordan, COO of the Investment Manager, holds value in shares of 3,831, amounting to €221,055 with the Ottoman Sub-Fund, as at the financial period ended 31 March 2025 (30 September 2024: €207,234). Desmond Riordan holdings in Mori Ottoman Fund increased during the financial period.

No Director, except for Desmond Riordan, or Secretary of the Company held any beneficial interest in the Redeemable Participating Shares in issue.

Other Related Party Transactions

The amounts paid to the Depositary, the Administrator, and the Company Secretary, MLRO and the amounts outstanding as at 31 March 2025 and 31 March 2024 are disclosed in Note 3.

Notes to the Financial Statements (continued)

For the financial period ended 31 March 2025

7. Related Party Transactions and Connected Person Transactions (continued)

Connected Persons

Regulation 43(1) of the Central Bank UCITS Regulations requires that any transaction carried out with a UCITS by a management company or depositary to the UCITS, the delegates or sub-delegates of the management company or depositary, and any associated or group company of such a management company, depositary, delegate or sub-delegate ("connected persons") must be carried out as if conducted at arm's length. Transactions must be in the best interests of the shareholders.

The Directors are satisfied that there are arrangements (evidenced by written procedures) in place, to ensure that the obligations set out on the previous page are applied to all transactions with connected persons, and are satisfied that transactions with connected persons entered into during the financial period complied with the obligations set out on the previous page.

8. Share Capital

The Company has authorised two types of shares:

Management Shares

As at 31 March 2025 and 30 September 2024, there were thirty thousand shares of €1.27 each in issue. The Management Shares do not form part of the NAV of the Company and are disclosed in the financial statements by way of this note only. In the opinion of the Directors, this reflects the nature of the Company's business as an investment fund. Management Shares do not have any distribution rights or rights to proceeds in the event of a winding up of the Company.

Redeemable Participating Shares

The Company has an authorised share capital of 500 million shares ("Redeemable Participating Shares") of no par value.

At 31 March 2025, the Company had the following Redeemable Participating Shares in issue of no par value:

Redeemable Participating Shares of the Sub-Funds are freely transferable and all are entitled to participate equally in the profits and distributions of the Sub-Funds and its assets in the event of termination.

All classes have the same voting rights at Company meetings (one vote per share).

To determine the NAV of the Company for subscriptions and redemptions, investments have been valued based on the last traded market prices as at the valuation point on the relevant valuation day.

Shareholders can subscribe for Shares on and with effect from any Dealing Day at the Subscription Price per Share on the relevant Dealing Day. Applications for Shares in the Sub-Funds must be received by 10:00hrs (Irish time) on the relevant Dealing Day in order for Shares to be allotted on that Dealing Day. If any application is received late, the Administrator will deal with the application on the following Dealing Day. Redemption requests for all Sub-Funds must be received at the same time as subscription requests. The classes of redeemable participating shares above are unhedged.

The ongoing capital requirement of €300,000 is being met through subscriptions into the Sub-Funds.

9. Fair Value of Financial Instruments

Fair Value Hierarchy

The following tables show financial instruments recognised at fair value, analysed between those whose fair value is based on:

- Quoted prices in active markets for identical assets or liabilities (Level 1);
- Those involving inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices) (Level 2); and
- Those with inputs for the asset or liability that are not based on observable market data (unobservable inputs) (Level 3).

Notes to the Financial Statements (continued)

For the financial period ended 31 March 2025

9. Fair Value of Financial Instruments (continued)

Fair Value Hierarchy (continued)

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the Directors. The Directors consider observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The Company's policy is to recognise transfers into and transfers out of the fair value hierarchy levels as at the last day of the financial period. There were no transfers during the financial period between levels of the fair value hierarchy for either the financial assets or the financial liabilities, which are both recorded at fair value.

9. Fair Value of Financial Instruments (continued)

Sensitivity analysis

If the market price of the Level 3 investments held by the Sub-Funds as at 31 March 2025 was to increase or decrease by 10%, with all other factors remaining constant, this would result in an increase or decrease in net assets attributable to holders of redeemable ordinary shares from operations of €nil (approximately nil% of net assets attributable to holders of redeemable participating shares) (30 September 2024: €nil (approximately nil% of net assets attributable to holders of redeemable participating shares)).

Investments, whose values are based on quoted market prices in active markets, and therefore classified within Level 1, include listed, active equity securities and futures contracts.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2. These include forward currency contracts and equities not listed on a recognised exchange, or which are listed, but are considered to be investments not traded in an active market.

The valuation of equities not listed on a recognised exchange, or which are listed, but are considered to be investments not traded in an active market or illiquid is determined by the Directors, under the advice of the Investment Manager, using valuation techniques. The valuation techniques rely, where available, on external prices and if necessary will make adjustments for impairment. Other factors taken into consideration are the original transaction price, any recent transactions in the same or similar instruments and completed third-party transactions in comparable instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources with a significant element of unobservable inputs are classified within Level 3.

Financial assets and liabilities not measured at fair value

The Company has not disclosed the fair value for assets and liabilities carried at amortised cost because their carrying amounts are a reasonable approximation of fair value.

10. Cash and Cash Equivalents, Cash Collateral and Margin Cash

As at 31 March 2025, cash, cash collateral and margin cash were held with the following financial institutions:

11. Efficient Portfolio Management

The Company is authorised to engage in certain transactions for the purposes of efficient portfolio management involving the use of derivative instruments, including forward currency exchange contracts and currency futures contracts and options on such futures contracts, as well as to purchase put or call options on foreign currencies.

In order to hedge against adverse market movements, the Company is also permitted to purchase put and call options on securities, write covered put and call options on stocks and enter into securities index futures contracts and related options. The Company is also authorised to hedge against interest rate fluctuations affecting portfolio securities by entering into interest rate futures contracts and options thereon and to enter into repurchase agreements. The Company may seek to protect the value of some or all of its portfolio holdings against currency risks by engaging in hedging transactions within the conditions and limits set down by the Central Bank.

The techniques and instruments utilized for the purposes of efficient portfolio management are those that are reasonably believed by the Investment Manager to be economically appropriate to the efficient management of the Company. The main financial instruments include exchange traded and over-the-counter derivatives such as futures and options on equity indices and individual stocks as well as currency options.

All fair value and movements in fair value gains/(losses) arising during the financial period through the use of efficient portfolio management techniques are included in the Statement of Comprehensive Income on page 11. The Sub-Funds traded forward currency exchange contracts during the financial period ended 31 March 2025 and financial year ended 30 September 2024.

12. Distribution Policy

There were no dividends or distributions paid to the shareholders during the financial period (30 September 2024: none).

13. Taxation

Under current law and practice, the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis it is not chargeable to Irish tax on its income or gains.

However, Irish tax may arise on the happening of a "chargeable event". A chargeable event includes any distribution payments to shareholders or any encashment, redemption, cancellation or transfer of shares and the holding of shares of each eight year period beginning with the acquisition of such shares. No Irish tax will arise on the Company in respect of chargeable events in respect of:

- (i) a shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the Company and;
- (ii) certain exempted Irish tax resident shareholders who have provided the Company with the necessary signed statutory declarations.

Dividends, interest and capital gains (if any) received on investments made by the Company may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Company or its shareholders.

Withholding tax presented in the Statement of Comprehensive Income includes withholding tax reclaimed as follows:

- Mori Eastern European Fund: €nil (31 March 2024: €nil).
- Mori Ottoman Fund: €nil (31 March 2024: €nil).

14. Significant Events

The imposition of economic sanctions against Russia in response to its invasion of Ukraine has resulted in restricted or no access to certain markets, investments, service providers or counterparties and will likely continue to negatively impact the performance of the Sub-Funds and may restrict the ability of the Investment Manager to implement the investment strategy of the Sub-Funds and achieve their investment objective. In addition, global equity and debt markets have experienced substantial volatility.

The geopolitical unrest between Israel and Palestine due to Israel formally declaring a state of war following the attacks by Hamas militants, along with Russian invasion of Ukraine, together with growing turmoil from fluctuations in commodity process, and foreign exchange rates and the potential to adversely impact global economies, has driven a sharp increase in volatility across markets.

Notes to the Financial Statements (continued)

For the financial period ended 31 March 2025

14. Significant Events (continued)

Considering the above outlook, the Board, in consultation with the Manager, the Investment Manager and the Depositary, have decided to maintain the suspension of the Sub-Funds. The Moscow Stock Exchange remains closed to trading for the Company and all parties continue to monitor market developments.

The Sub-Funds have remained suspended to the financial period end. Indicative valuations have been prepared for each valuation point since the date of suspension, including and up to the period end.

There were no other significant events during the financial period ended 31 March 2025.

15. Subsequent Events

There were no subsequent events to report after the financial period ended 31 March 2025.

16. Commitments and Contingent Assets and Liabilities

Contingent Asset

As a result of sanctions, investors from 'unfriendly countries' remain unable to repatriate dividend income paid by Russian Holdings for the benefit of the Sub-Funds. The total Russia dividends impacted amounted to RUB 640,473,442 (EUR 6,996,119) as of 31 March 2025 (30 September 2024: RUB 566,579,234 (EUR 5,451,433)). Due to restrictions imposed by the Russian Government, the majority of these contingent assets are currently being held at the Russian Depositary Insurance Agency. These amounts have not been reflected in the financial statements under Board instruction. This is consistent with the Board's approach of pricing all Russia holdings at zero due to continued market uncertainty.

There were no significant commitments or contingent liabilities as at 31 March 2025 (30 September 2024: none).

17. Approval of Unaudited Report

The condensed Interim Report and Unaudited Financial Statements were approved and authorised for issue by the Directors on 22 May 2025.

Financial Information

For the financial period ended 31 March 2025

The Total Expense Ratio is calculated in accordance with Asset Management Association Switzerland (AMAS) "Guidelines on the calculation and disclosure of the TER". These guidelines are aimed at ensuring the uniform implementation of this provision with regard to the costs and commissions incurred in connection with the management of investment funds, thereby contributing to the highest possible pricing transparency for the investment funds offered on the Swiss market.
