# Report of the Investment Manager

For the financial period ended 31 March 2021

## Mori Eastern European Fund

The net asset value of the Mori Eastern European Fund (the Fund) increased by 17% in euro terms (EUR Share Class-M) for the period under review. The MSCI Emerging Europe 10/40 Index was up 22.1% for the same period. Unless otherwise stated, performance numbers are quoted for the six-month period under review.

The stock markets around the world rallied from November 2020 into the new year following the US presidential elections that resulted in the victory of new President Joe Biden. After some normalisation and easing of the restrictions in view of the Covid-19 pandemic during the summer months, governments around the world implemented new restrictions starting in the autumn and winter 2020. However, Covid-19 vaccines, coupled with new waves of economic stimulus packages and quantitative easing, channelled fresh funds into the capital markets, which supported stock prices in general as well. New President Biden, for example, signed off a USD 1.9 trillion stimulus package shortly after he took over the Oval Office and the US was in preparation for an additional USD 2.2 trillion package at the time this report was written.

In Emerging Europe, Turkey was the only country amongst the OECD economies that managed to post a positive GDP growth in 2020 after China. The Turkish economy grew by 1.8% in 2020, according to Turkstat. However, the side effect of this growth was inflation (CPI) hitting 14.5% at the end of 2020, which led the Central Bank of Turkey to raise policy interest rates a few times during the period under review. Whilst the interest rate hikes led the Turkish lira to appreciate against the major currencies starting in November, the unexpected dismissal of the Central Bank Governor in March spoiled the party and resulted in currency depreciation and elevated volatility in Turkish asset prices. The Fund locked in some profits in Kardemir and Karsan. The Fund sold out its position in Emlak Konut as the stock price reached the Fund Manager's price target. Koza group companies contributed handsomely as the companies benefited from strong gold prices and continued to increase their cash pile with no debt.

The Russian economy also fared relatively well in view of the Covid-19 pandemic, with its GDP contracting only by 3% in 2020 (according to Russtat). Despite increased political risks between the US and Russia following the harsh remarks made by new President Biden, Russian equity indices were well supported by the increase in oil and commodity prices globally. The Fund topped up its exposure to Gazprom during the period under review, as the management of the company reiterated its dividend policy for 2020 and the next couple of years, which made the stock attractive in the Fund Manager's view. The Fund decreased its exposure to Norilsk Nickel following news of flooding in the company's major production site, which may shave off the company's operating margins in the foreseeable future.

Polish equities underperformed their regional peers during the period under review. The Polish banks continued to trade sluggishly as the saga of historic FX mortgage loans persisted. However, there was some light at the end of the tunnel with a potential resolution later in 2021. Thus, the Fund added Bank Pekao to the portfolio during the first quarter of 2021. Based on the Fund Manager's research, Bank Pekao has very limited exposure to the old FX loans but its stock price has been undeservedly penalised in recent years in line with its peers. Positive news about progress being made with the inherited FX loans also fuelled some Fund's holdings particularly Alior Bank after a few quarters of sluggish performance. The Fund reduced its exposure to the retailer Eurocash as the company disappointed with its operating and financial performance figures.

Following the failed merger talks in 2019/2020, PPF Group in the Czech Republic resurfaced with a voluntary offer to acquire up to 30% of Moneta Money Bank shares on the market. The voluntary offer was approved by the Czech National Bank. The Fund decided to tender its shares in the offer as there would be a number of unknowns during the merger process and in order to make use of the proceeds in relatively cheaper stocks.

History suggests that widespread pandemic events last between two to three years. Based on this, the world may still have another year to one and a half years of Covid-19 pandemic to deal with. The effectiveness of the vaccines, none of which have gone through sufficient testing periods, may play an important role. However, the Fund Manager currently uses a base case of some easing again during the summer months that may be followed by increased restrictions and lockdowns again into the next winter. Under this scenario, governments would likely continue running large budget deficits and the indebtedness of countries would continue to increase in 2021. With the exception of Greece, most emerging European countries have the capacity to increase debt levels given their relatively low indebtedness. Thus, the Fund Manager's preference would likely remain in companies that are well capitalized with low debt levels and diversified customer base.

**We hope that the Covid-19 pandemic is contained around the world very soon and we would like to take this opportunity to wish all our investors good health and high morale.**

## Mori Ottoman Fund

The net asset value of the Mori Ottoman Fund (the Fund) increased by 14.3% in euro terms (EUR Share Class-C) for the period under review. The MSCI Emerging Europe 10/40 Index was up 22.1% for the same period. Following a large outperformance for the calendar year in 2020 (-8% vs. the Index's -19.5%), the Fund Manager took a relatively conservative stance during the period under review. Unless otherwise stated, performance numbers are quoted for the six-month period under review.

The stock markets around the world rallied from November 2020 into the new year following the US presidential elections that resulted in the victory of new President Joe Biden. After some normalisation and easing of the restrictions in view of the Covid-19 pandemic during the summer months, governments around the world implemented new restrictions starting in the autumn and winter 2020. The Fund locked in some profits in Kardemir and Karsan. The Fund sold out its position in Emlak Konut and IS Gayrimenkul as the stock prices reached the Fund Manager's price target. Koza group companies contributed handsomely as the companies benefited from strong gold prices and continued to increase their cash pile with no debt. The Fund also locked in profits in Aksa Enerji after the stock's strong price performance. The Fund added Haci Omer Sabanci Holding to the portfolio as the stock's discount to its underlying net asset value increased dramatically, based on the Fund Manager's research. IS Yatirim, the securities arm of Isbank, was a strong contributor to performance as the company benefits from skyrocketing volumes on the stock exchange and a wave of initial public offerings in Turkey for the last year.

The Russian economy also fared relatively well in view of the Covid-19 pandemic, with its GDP contracting only by 3% in 2020 (according to Russtat). Despite increased political risks between the US and Russia following the harsh remarks made by new President Biden, Russian equity indices were well supported by the increase in oil and commodity prices globally. Positive news about progress being made with the inherited FX loans also fuelled some Fund's holdings, particularly Alior Bank after a few quarters of sluggish performance. The Fund reduced its exposure to the retailer Eurocash as the company disappointed with its operating and financial performance figures. The Fund made a couple of round trips in Ten Square Games during the offerings by the founding shareholders during the period under review.

Following the failed merger talks in 2019/2020, PPF Group in the Czech Republic resurfaced with a voluntary offer to acquire up to 30% of Moneta Money Bank shares on the market. ### 2. Significant Accounting Policies

The significant accounting policies and estimation techniques adopted by the Company for the financial period ended 31 March 2021 are consistent with those adopted by the Company for the annual financial statements for the financial year ended 30 September 2020, except as noted below.

#### Basis of Preparation

The condensed interim report and unaudited financial statements for the financial period ended 31 March 2021 have been prepared in accordance with IAS 34, 'Interim Financial Reporting'. The condensed interim report and unaudited financial statements should be read in conjunction with the annual financial statements for the financial year ended 30 September 2020 which have been prepared in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union.

In addition, these financial statements are prepared in accordance with the UCITS Regulations and the Central Bank UCITS Regulations.

### 3. Fees

#### Administration Fees

##### ***Northern Trust International Fund Administration Services (Ireland) Limited***

Mori Capital Management Limited ("the Investment Manager") pays the Administrator for services provided in relation to administration, accounting and middle office services in respect of the Sub-Funds to which it acts as investment manager. The Company pays an administration fee, which includes fees payable to the Administrator, to the Investment Manager of up to 0.5% per annum of the Net Asset Value of the Company.

The Administrator is paid directly by the Company for services provided in relation to shareholder services and transfer agency.

The Administrator further shall be entitled to be repaid all of its reasonable out-of-pocket expenses out of the assets of the Sub-Funds properly incurred by it in the performance of its duties and responsibilities.

During the financial period ended 31 March 2021, the Administration fees totalled €222,896 (31 March 2020: €289,684) of which €37,056 (30 September 2020: €28,334) was payable at 31 March 2021.

#### Depositary Fees

##### ***Northern Trust International Fund Administration Services (Ireland) Limited***

The Company shall pay to the Depositary for services to be provided in relation to trustee services accrued and payable monthly in arrears, calculated on the Net Asset Value of each Sub-Fund, subject to a minimum monthly fee of €1,500 per Sub-Fund, as follows:

- 0.0225% per annum on the Net Asset Value on the first US\$250 million;
- 0.0200% per annum on the Net Asset Value on the next US\$250 million;
- 0.0175% per annum on the Net Asset Value for any amount in excess of US\$500 million.

## Notes to the Financial Statements (continued)

For the financial period ended 31 March 2021

### 3. Fees (continued)

#### Depository Fees (continued)

The Depository shall also be entitled to be repaid out of the assets of the Sub-Funds all of its reasonable out-of-pocket expenses and transaction charges properly incurred by it in the performance of its duties and responsibilities under the Depository Agreement which shall include wire and transfer charges, maintenance fee on derivatives, courier costs and filing fees, payable upon prior approval by the Company or its delegate.

Additionally, the Depository will charge to the Sub-Funds all safekeeping charges incurred by its sub-custodians and transaction fees, including stamp duties, scrip charges, registration fees and special taxes plus the usual ad hoc administration costs, all of which shall be at normal commercial rates.

During the financial period ended 31 March 2021, the Depository fees totalled €52,438 (31 March 2020: €96,465), of which €30,032 (30 September 2020: €21,000) was payable at 31 March 2021.

#### Investment Management Fee

##### **Mori Capital Management Limited**

The Company shall pay a fee to the Investment Manager in respect of each Sub-Fund at the following percentage rate per annum of the value of the average net assets of the Sub-Funds:

|                                                                             |              |
|-----------------------------------------------------------------------------|--------------|
| - Mori Eastern European Fund – Class A                                      | 1.65 percent |
| - Mori Eastern European Fund – Class B                                      | 1.75 percent |
| - Mori Eastern European Fund – Class AA GBP                                 | 2.00 percent |
| - Mori Eastern European Fund – Class C EUR, Class C GBP and Class M EUR     | 1.25 percent |
| - Mori Ottoman Fund – Class A                                               | 1.75 percent |
| - Mori Ottoman Fund – Class AA GBP                                          | 2.00 percent |
| - Mori Ottoman Fund – Class C EUR, Class C GBP, Class C USD and Class M USD | 1.25 percent |

The Company pays to the Investment Manager an annual fee accrued as of each Valuation Day and payable monthly in arrears at the rates above per annum of the average NAVs of the Sub-Fund (plus VAT, if any). The Investment Manager pays the fees of any sub-investment manager or adviser appointed by it.

The Investment Manager can at their discretion reduce the fees they charge the Sub-Funds to keep the expenses within a certain threshold.

The Investment Management Agreement may be terminated by either party on giving not less than six months prior written notice to the other party. It may also be terminated forthwith upon certain breaches or upon the insolvency of a party (or upon the occurrence of a similar event).

During the financial period ended 31 March 2021, the Investment Manager charged management fees of €720,622 (31 March 2020: €928,786), of which €316,518 (30 September 2020: €302,472) was payable at 31 March 2021.

The Investment Manager also pays on behalf of the Sub-Funds a portion of the fees related to the administration services provided by the Administrator. The total amount paid during the financial period by the Investment Manager on behalf of the Sub-Funds amounted to €48,090 (31 March 2020: €49,878).

#### Performance Fee

The Investment Manager will be paid from the Sub-Funds a performance fee accrued as of each Valuation Day and payable as of each Calculation Day.

There is no performance fee payable in respect of the AA Share Classes or C Share Classes. The Investment Manager may waive or reduce the performance fees payable at its entire discretion. The performance fees described below may be altered by agreement in writing between the Investment Manager and the Company.

The amount of performance fees earned by the Investment Manager in respect of any period will be retained regardless of the subsequent performance of the Sub-Fund.

The performance fee is calculated by the Administrator and verified by the Depository and the Investment Manager. If the determination of the NAV per Share is suspended on any Calculation Date the calculation of the performance fees on that date will be based upon the next available determination of the NAV per Share and the amount of any performance fees accrued will be adjusted accordingly.

## Notes to the Financial Statements (continued)

For the financial period ended 31 March 2021

### 3. Fees (continued)

#### Performance Fee (continued)

Where a Performance Fee is payable out of the assets of a Sub-Fund it shall be calculated upon the increase in the Net Asset Value per Share calculated at the Calculation Day. Included in that calculation shall be net realised and unrealised capital gains plus net realised and unrealised capital losses as at the end of the relevant period. As a result, Performance Fees may be paid on unrealised gains which may subsequently never be realised.

"Calculation Period" for these purposes means the period commencing on the preceding Calculation Day and ending on and including the Valuation Day in question and the first Calculation Period shall be from the Closing Date to the first Valuation Day.

"Benchmark NAV" for these purposes shall be calculated by applying the EUR 3 month LIBOR rate on a quarterly basis to either the NAV per Share as at the beginning of the Calculation Period (where a performance fee based on this NAV was payable) or to the previously calculated Benchmark NAV at the beginning of the Calculation Period (where no performance fee was payable at the previous quarter end).

The relevant EUR 3 month LIBOR rate will be calculated as at the Calculation Day or date of initial issue, if earlier and will apply for the following Calculation Period.

#### *Mori Eastern European Fund*

The Investment Manager will be paid from Mori Eastern European Fund a performance fee of (i) 15 percent in respect of Class A Shares of the amount (if any) by which the NAV per Share is on the relevant Calculation Day greater than the higher of (1) the highest NAV per Share on any preceding Calculation Day or (2) the Benchmark NAV (defined below), such excess being multiplied by the weighted average number of Shares in issue during the relevant Calculation Period or, in the case of (b) below, the number of Shares being redeemed or (ii) 20 percent in respect of Class B Shares of the amount (if any) by which the percentage return of the NAV per Share in the period from the preceding Calculation Day (or the Closing Date where applicable) to the relevant Calculation Day exceeds the percentage return of the MSCI EM Europe 10/40 Index Total Return (EUR) (MN40MUE Index) in the period from the preceding Calculation Day (or the Closing Date where applicable) to the relevant Calculation Day, such excess being multiplied by the NAV per Share at the end of the Calculation Period and multiplied by the weighted average number of Shares in issue during any Calculation Period or, in the case of (b) below, the number of shares being redeemed. With effect from 23 June 2016, any underperformance of the MSCI EM Europe 10/40 Index Total Return (EUR) by the Class B Shares in the preceding period from the last Calculation Day must be clawed back (cleared) before a performance fee becomes due in subsequent periods.

The weighted average number of Shares in issue during any Calculation Period shall be calculated based upon the number of Shares in issue on each Valuation Day during the Calculation Period, taking account of the period of time for which such shares were in issue during the Period. In calculating the performance fee, account will be taken of performance fees paid on redemption. Due to the use of averaging in calculating the performance fee, the economic effect of performance fees on a per Share basis may substantially differ from the rate of 15% or 20% as applicable as described above. An appropriate provision for the amount of Performance Fee which is likely to be payable on the next Calculation Day based on the performance of the Sub-Fund to date will be included in the NAV per Share on each Valuation Day.

"Calculation Day" for the purposes means:

- (a) the last Valuation Day in each calendar quarter for Class A Shares and the last Valuation Day in each financial year ending 30 September for Class B Shares;
- (b) in respect of Shares which are redeemed, the Valuation Day immediately prior to the Dealing Day on which such Shares are redeemed;
- (c) the date of termination of the Investment Management Agreement; or
- (d) such other date on which the Company or the Sub-Fund may be liquidated or cease trading.

For the purpose of calculating the performance fee, the NAV per Share will be calculated after deducting investment management fee described above but without accounting for the performance fee then payable by the Company. The Performance Fee may be adjusted in the event of any change in the manner in which the MSCI EM Europe 10/40 Index Total Return (EUR) is calculated or published and any rebasing of the MSCI EM Europe 10/40 Index Total Return (EUR). For Classes which are denominated in a currency other than that of the MSCI EM Europe 10/40 Index Total Return (EUR), the MSCI EM Europe 10/40 Index Total Return (EUR) shall be re-denominated in the currency of the Class or as the Directors may otherwise think fit.

During the financial period ended 31 March 2021, the Performance fees totaled €nil (31 March 2020: €26), of which €nil (30 September 2020: €nil) was payable at 31 March 2021.

For the financial period ended 31 March 2021

### 3. Fees (continued)

#### Performance Fee (continued)

##### *Mori Ottoman Fund*

The Investment Manager shall be paid from Mori Ottoman Fund a performance fee payable as of each Calculation Day (defined below) of 15 per cent. In respect of the Class A Shares of the amount (if any) by which the NAV per Share is on the relevant Calculation Day greater than the highest NAV per Share on any preceding Calculation Day (or greater than EUR 100.00 in the case of the first Calculation Day) multiplied by the weighted average number of Shares in issue during the relevant Calculation Period or, in the case of (b) below, the number of Shares being redeemed. The weighted average number of Shares in issue during any Calculation Period shall be calculated based upon the number of Shares in issue on each Valuation Day during the Calculation Period, taking account of the period of time for which such shares were in issue during the Period. In calculating the performance fee, account will be taken of performance fees paid on redemption, which will be deducted from redemption proceeds. Due to the use of averaging in calculating the performance fee, the economic effect of performance fees on a per Share basis may substantially differ from the rate of 15% as described above. An appropriate provision for the amount of Performance Fee which is likely to be payable on the next Calculation Day based on the performance of the Sub-Fund to date will be included in the NAV per Share on each Valuation Day.

"Calculation Day" for the purposes means:

- (a) the last Valuation Day in each calendar quarter;
- (b) in respect of Shares which are redeemed, the Valuation Day immediately prior to the Dealing Day on which such Shares are redeemed;
- (c) the date of termination of the Investment Management Agreement; or
- (d) such other date on which the Company or the Sub-Fund may be liquidated or cease trading.

For the purpose of calculating the performance fee, the NAV per Share will be calculated after deducting investment management fee described above but without accounting for the performance fee then payable by the Company.

During the financial period ended 31 March 2021, the Performance fees totalled €76 (31 March 2020: €300,827), of which €nil (30 September 2020: €nil) was payable at 31 March 2021.

#### Company Secretary

Goodbody Secretarial Limited charges an annual fee of €12,000 plus VAT at 23% for the provision of company secretarial services.

#### Directors' Fees

The Company pays the Directors such annual remuneration for acting as Directors of the Company as the Directors may from time to time agree, provided however, that the annual remuneration of the Directors will not in aggregate exceed €125,000 per annum payable semi-annually in arrears.

Aggregate emoluments paid to or receivable by Directors in respect of qualifying services for the financial period are €52,626 (31 March 2020: €52,516), with €25,803 (30 September 2020: €25,676) still outstanding at 31 March 2021.

Other than as disclosed above any further required disclosures in Section 305/306 of the Companies Act 2014 are nil.

#### Transaction Costs

In order to achieve its investment objective, the Company incurs transaction costs in relation to trading activity on its portfolios. Disclosed in the table below are separately identifiable transaction costs incurred by the Company for the financial period ended 31 March 2021 and 31 March 2020. These mainly represent broker fees on equities traded throughout the financial period. Included in the transaction costs expensed in the Statement of Comprehensive Income are the following transaction costs incurred by the Funds in relation to their trading activity:

| Sub-Fund                   | 2021   | 2020    |
|----------------------------|--------|---------|
| Mori Eastern European Fund | €3,086 | €13,689 |
| Mori Ottoman Fund          | €2,934 | €9,095  |

## Notes to the Financial Statements (continued)

For the financial period ended 31 March 2021

### 7. Related and Connected Person Transactions

Persons are considered to be related if one person has the ability to control the other party or exercise significant influence over the other person in making financial or operational decisions.

Any transaction carried out with a UCITS by a management company or depositary to the UCITS, the delegates or sub-delegates of the management company or depositary, and any associated or group of such a management company, depositary, delegate or sub delegate ("connected persons") must be carried out as if conducted at arm's length. Transactions must be in the best interests of the shareholders.

The Directors are satisfied that there are arrangements (evidenced by written procedures) in place, to ensure that the obligations set out in Regulation 43(1) of the Central Bank UCITS Regulations are applied to all transactions with connected persons, and are satisfied that transactions with connected persons entered into during the period complied with the obligations set out in Regulation 43(1) of the Central Bank UCITS Regulations.

IAS 24 "Related Party Disclosures" requires the disclosure of information relating to material transactions with persons who are deemed to be related to the reporting entity.

Related parties to the Company include the Investment Manager and Directors of the Company.

#### Investment Manager

Mori Capital Management Limited is the Investment Manager to the Sub-Funds. The Investment Manager is an investment management company licenced and authorised by the Malta Financial Services Authority and approved to act as Investment Manager by the Central Bank of Ireland. The fees paid to the Investment Manager and the amounts outstanding are disclosed in Note 3.

#### Directors

The amount paid to the Directors in the financial period ended 31 March 2021 and the amounts outstanding on 30 September 2020 are disclosed in Note 3.

No Director or Secretary of the Company held any beneficial interest in the Redeemable Shares in issue.

### 8. Share Capital

The Company has authorised two share classes:

#### Management Shares

As at 31 March 2021 and 30 September 2020, there were thirty thousand shares of €1.27 each in issue. The Management Shares do not form part of the NAV of the Company and are disclosed in the financial statements by way of this note only. Redeemable Shares of the Sub-Funds are freely transferable and all are entitled to participate equally in the profits and distributions of the Sub-Fund and its assets in the event of termination.

All classes have the same voting rights at Company meetings (one vote per share).

To determine the NAV of the Company for subscriptions and redemptions, investments have been valued based on the last traded market prices as of the close of business on the valuation day.

Shareholders could subscribe for Shares on and with effect from any Dealing Day at the Subscription Price per Share on the relevant Dealing Day. Applications for Shares in the Sub-Funds must be received by 10:00hrs (Irish time) on the relevant Dealing Day in order for Shares to be allotted on that Dealing Day. If any application is received late, the Administrator will deal with the application on the following Dealing Day. Redemption requests for all Sub-Funds must be received the same time as subscription requests.

The ongoing capital requirement of €300,000 is being met through subscriptions into the Sub-Funds.

## Notes to the Financial Statements (continued)

For the financial period ended 31 March 2021

### 9. Fair Value of Financial Instruments

#### Fair Value Hierarchy

The following tables show financial instruments recognised at fair value, analysed between those whose fair value is based on:

- Quoted prices in active markets for identical assets or liabilities (Level 1);
- Those involving inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices) (Level 2); and
- Those with inputs for the asset or liability that are not based on observable market data (unobservable inputs) (Level 3).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the Directors. The Directors consider observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

\* Market value written down to zero by the Investment Manager.

There was no movement during the financial period ended 31 March 2021 (30 September 2020: none) in investments which have been classified into Level 3.

There were no transfers between levels for the financial period ended 31 March 2021 and for the financial year end 30 September 2020.

#### Sensitivity analysis

If the market price of the Level 3 investments held by the Sub-Funds as at 31 March 2021 was to increase or decrease by 10%, with all other factors remaining constant, this would result in an increase or decrease in net assets attributable to holders of redeemable ordinary shares from operations of €nil (approximately nil% of net assets attributable to holders of redeemable shares) (30 September 2020: €nil (approximately nil% of net assets attributable to holders of redeemable shares)).

Investments, whose values are based on quoted market prices in active markets, and therefore classified within Level 1, include listed, active equity securities and future contracts.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2. These include forward currency contracts and equities not listed on a recognised exchange, or which are listed, but are considered to be investments not traded in an active market.

The valuation of equities not listed on a recognised exchange, or which are listed, but are considered to be investments not traded in an active market or illiquid is determined by the Directors, under the advice of the Investment Manager, using valuation techniques. The valuation techniques rely, where available, on external prices and if necessary will make adjustments for impairment. Other factors taken into consideration are the original transaction price, any recent transactions in the same or similar instruments and completed third-party transactions in comparable instruments.

### 11. Efficient Portfolio Management

The Company is authorised to engage in certain transactions for the purposes of efficient portfolio management involving the use of derivative instruments, including forward currency exchange contracts and currency futures contracts and options on such futures contracts, as well as to purchase put or call options on foreign currencies. In order to hedge against adverse market movements, the Company is also permitted to purchase put and call options on securities, write covered put and call options on stocks and enter into securities index futures contracts and related options. The Company is also authorised to hedge against interest rate fluctuations affecting portfolio securities by entering into interest rate futures contracts and options thereon and to enter into repurchase agreements. The Company may seek to protect the value of some or all of its portfolio holdings against currency risks by engaging in hedging transactions within the conditions and limits set down by the Central Bank.

All fair value and movements in fair value gains/(losses) arising during the financial period through the use of efficient portfolio management techniques are included in the Statement of Comprehensive Income on page 9. The Company only traded futures and forward currency exchange contracts during the financial period ended 31 March 2021.

### 12. Distribution Policy

There were no dividends or distributions paid to the shareholders during the financial period (30 September 2020: none).

## Notes to the Financial Statements (continued)

For the financial period ended 31 March 2021

### 13. Taxation

Under current law and practice, the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis it is not chargeable to Irish tax on its income or gains.

However, Irish tax may arise on the happening of a "chargeable event". A chargeable event includes any distribution payments to shareholders or any encashment, redemption, cancellation or transfer of shares and the holding of shares of each eight year period beginning with the acquisition of such shares. No Irish tax will arise on the Company in respect of chargeable events in respect of:

- (i) a shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the Company and;
- (ii) certain exempted Irish tax resident shareholders who have provided the Company with the necessary signed statutory declarations.

Dividends, interest and capital gains (if any) received on investments made by the Company may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Company or its shareholders.

Withholding tax presented in the Statement of Comprehensive Income includes withholding tax reclaimed as follows:

- Mori Eastern European Fund: €nil (31 March 2020: €21,883).
- Mori Ottoman Fund: €nil (31 March 2020: €nil).

### 14. Significant Events

The Prospectus for Mori Umbrella Fund plc was updated on 3 March 2021 to incorporate wording in relation to Brexit, Pandemics, Performance fee calculation periods and for ("SFDR") Sustainable Finance Disclosure Regulation.

#### COVID-19

Since the start of January 2020, global financial markets have been monitoring and reacting to COVID-19. The virus spread worldwide throughout 2020 resulting in widespread restrictions. Global financial markets reacted sharply negative to this news in Quarter 1 2020, with concerns regarding the economic impact this may have on a global scale. Financial markets have rebounded strongly since Quarter 1 2020 given massive global government fiscal and monetary stimulus. The eventual impact on the global economy and financial markets will largely depend upon the scale and the duration of outbreaks, the success of global vaccination roll-outs, the potential impact of new variants of COVID-19 and continued government stimulus.

All service providers have enacted their respective business continuity plans and the Board of Directors will continue to monitor this situation closely."

There were no other significant events to report during the financial period ended 31 March 2021.

### 15. Subsequent Events

There were no subsequent events to report after the financial period ended 31 March 2021.

### 16. Commitments and Contingent Liabilities

There were no significant commitments or contingent liabilities as at 31 March 2021 (30 September 2020: none).

### 17. Approval of Unaudited Report

The condensed Interim Report and Unaudited Financial Statements were approved and authorised for issue by the Directors on 13 May 2021.

The significant changes to the portfolio for the financial period ended 31 March 2021 are the aggregate purchases of a security exceeding 1% of the total value of purchases and aggregate disposals greater than 1% of the total value of sales. If there are fewer than 20 purchases/sales that meet the material changes definition, the Company shall disclose those purchases/sales so at least 20 purchases/sales are disclosed.

## Financial Information 31 March 2021 (continued)

For the financial period ended 31 March 2021

The Total Expense Ratio is calculated in accordance with the Swiss Funds & Asset Management Association (SFMA) "Guidelines on the calculation and disclosure of the TER". These guidelines are aimed at ensuring the uniform implementation of this provision with regard to the costs and commissions incurred in connection with the management of investment funds, thereby contributing to the highest possible pricing transparency for the investment funds offered on the Swiss market.
